Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 9, and 12-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Wishnefsky.

The Wishnefsky reference discloses a toothbrush comprising a head 10, bristles 12, a neck 13, a handle part 14, a container holder 22, a toothpaste container 18, and latching engagement/protuberances (15, 20).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7, 8, and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wishnefsky in view of Jackson.

The Wishnefsky reference discloses a toothbrush as discussed supra, but does not disclose a pin/spike to seal the toothpaste container. However, attention is directed

Art Unit: 3751

to the Jackson reference, which discloses a similar toothbrush including a pin/spike 17 to seal the toothpaste container when not in use. It would have been obvious to one of ordinary skill in the art at the time the invention was made to employ a pin/spike on the Wishnefsky toothbrush in view of the teachings of Jackson to seal the toothpaste container when not in use.

Claims 11, 17, and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wishnefsky in view of Voigt.

The Wishnefsky reference discloses a toothbrush as discussed supra, but does not disclose that the toothpaste container is translucent with a scale. However, attention is directed to the Voigt reference, which discloses a similar toothbrush including a translucent toothpaste container 72 with a scale 74 so that the user can easily determine the amount of toothpaste remaining. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the Wishnefsky toothpaste container to be translucent and have a scale in view of Voigt so that the user can easily determine the amount of toothpaste remaining.
